A UltraDuty™ GHS Chemical Labels Ensure your chemical labels are compliant with the Globally Harmonized System (GHS). UltraDuty™ labels are specifically designed to withstand chemicals, abrasion, sun, water, tearing and extreme temperatures. With high-performance adhesive, they pass the BS5609 protocol for 90-day seawater immersion. Ideal for labeling drums, totes, pails, jugs and bottles, they're also great for other uses such as OSHA safety signs, arc flash, tank, marine and outdoor work labels. Design and print your required labels, on-demand, with free templates at Avery® Design & Print GHS.

C Polyethylene-Coated Cloth Duct Tape With one of the lowest profiles of all of our polyethylene duct tapes, it is ideal for low-bulk bundling of wires to be pulled through conduit. The natural rubber adhesive gives you instant stick and long-term hold, even on irregular surfaces. The polyethylene-coated, cloth-reinforced backing conforms to curved surfaces and resists moisture and humidity. The tape tears easily, across or down, without curling.

ID No.	Color	W × L	Core	Thickness	Qty.	Unit	Price

F T-Rex Duct Tape Double the thickness of ordinary tape, this tape is extremely strong. Features a thick, aggressive adhesive that can stick to rough, dirty surfaces allowing you to get the job done right the first time. UV-resistant layer is built into the tough skin of the tape, giving T-Rex tape the staying power to last through all types of weather and temperatures. For projects that need intense holding power, making long lasting repairs that ordinary tapes just can't handle.

ID No.	Color	W × L	Core	Thickness	Qty.	Unit	Price

Check pallet types to determine which stretch film to use.

TYPE A
Square, no protruding edges.

TYPE B
Somewhat square with some voids in pallet.

TYPE C
Protruding boxes and voids on pallet.

B Black Stretch Film Semi-opaque security film helps to conceal printing or graphics on packaging. Use with Universal® 89000 Adjustable Hand Dispenser (sold separately) for easy application.
